EXPERIENCE

Adyen | ENGINEERING MANAGER / TEAM LEAD

July 2022 - Present | Amsterdam, Netherlands

- Lead the IPP Scalability team, driving platform reliability, resilience and 50x scale growth for Adyen's In-Person Payments platform.
- Develop high-performing engineering teams through coaching, mentorship and growth.
- Drive strategic initiatives with merchants, partners and senior stakeholders.

PayPal | SENIOR BACKEND DEVELOPER

May 2019 - June 2022 | Stockholm, Sweden

- Delivered compliance solutions supporting the migration of millions of merchants across Europe in response to regulatory and banking license changes.
- Developed risk systems for merchant onboarding and ongoing activity monitoring, improving detection of high-risk events and platform security.

BankBazaar | SENIOR SOFTWARE ENGINEER

Dec 2016 - May 2019 | Bengaluru, India

- Architected a customer data platform that consolidated millions of real-time customer events into unified profiles, powering personalization and recommendation capabilities.
- Developed scalable analytics and data warehousing solutions for enterprise reporting and insights, enabling data-driven decision-making across business and product teams.

Snapdeal | SOFTWARE ENGINEER

July 2015 - Nov 2016 | Bengaluru, India

- Developed machine learning driven product ranking capabilities to enhance content discovery and user engagement across high-traffic e-commerce applications.
- Built scalable user-generated content platforms and APIs serving 5K+ TPS with p99 latency below 10 ms.

PUBLICATIONS

- **Privacy Enhancement in E-Mail Clients:** Published by Springer International Publishing Switzerland.
- **Product Quality Prediction in a Large E-commerce Environment:** Published as White Paper at Snapdeal.

ACHIEVEMENTS

- Recognized with PayPal Spot Award for outstanding performance, ownership and relentless efforts.
- Honored with Gold Award from Snapdeal for excellence, innovation and quality.
- Awarded Prestigious Director's Gold Medal in Bachelor Degree of Technology.
- Winner of Algo-Z-Ripper (Annual coding competition, NIT Patna).
- Runner up in WebWeaver (Annual web designing competition, NIT Patna).
- Served as core team member of official Web Development Team, NIT Patna.
